DRAFT ENVIRONMENTAL IMPACT REPORT FOR CONCORD TO SACRAMENTO  
PETROLEUM PRODUCTS PIPELINE PROJECT (SCH#2002022010)

Dear Ms. Brown:

The Department of Toxic Substances Control's (DTSC) Northern California-Central Cleanup Operations Branch (NCCCOB) has reviewed the document referenced above for the portion of the project covering Solano, Yolo and Sacramento Counties and has the following comment. After reviewing our hazardous substances site data base (Calsites), we have identified sites in the immediate area (list enclosed). DTSC recommends that if any of the installation work requires digging around these locations that proper precautions to protect the public and workers be taken. DTSC has not done an evaluation to determine whether any of these sites could impact the subject project.

NCCCOB has forwarded this report to our Berkeley regional office's Coastal Cleanup Operations Branch for review of the portion of the project located in that region. Our Berkeley office may send comments under separate letter. The contact in Berkeley is Ms. Barbara Cook. She may be contacted at (510) 540-3843.

If you have any questions, please contact me by email [tmiles@dtsc.ca.gov](mailto:tmiles@dtsc.ca.gov) or at (916) 255-3710.

Sincerely,

Tim Miles  
Hazardous Substances Scientist

Enclosure

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption.  
For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at [www.dtsc.ca.gov](http://www.dtsc.ca.gov).
